

Hydraulic & Lube Filtration

For Immediate Release

SCHROEDER INDUSTRIES INTRODUCES

Tank-Mounted Filter | ART

November 2013 | Leetsdale, PA

Leetsdale, PA - Schroeder Industries, a recognized leader in filtration and fluid conditioning products, re-releases the Tank-Mounted Filter | ART, a low pressure filter.

Return line tank-mounted filtration offers a space saving solution for OEM's of mobile machinery seeking to reduce the volume dedicated to hydraulic components. Schroeder Industries has a large offering of tank mounted filters to find the optimal filter for each customer. Today, Schroeder Industries adds another product to the return line tank mounted filter portfolio by adding a new product between the LRT (150 gpm) and the BFT (300 gpm)

ART

The 145 psi ART feature an aluminum head and cap with a plastic bowl to reduce both weight and cost. An integral 43 psid bypass is replaced every time the unique element is changed.

About Schroeder Industries

Schroeder Industries, an ISO 9001: 2008 certified company, designs, manufactures and markets filtration products for the hydraulic and lubrication, filter systems, process and fuel industries. Their expertise in filtration technology, superior filter and element technology capabilities, dedication to customer service and product support are the reasons Schroeder is a worldwide leader in Advanced Fluid Conditioning Solutions®.
