Leetsdale, PA - Schroeder Industries, a recognized leader in filtration and fluid conditioning products, releases the Bulk Diesel Fuel Filter Skid for flow rates up to 280 gpm | BDS4.

The Bulk Diesel Skid (BDS) family, consisting of the BDS (up to 70 gpm), BDS2 (up to 140 gpm) and BDS3 (up to 210 gpm), has been expanded with the BDS4 (up to 280 gpm). The BDS4 incorporates one particulate filter and four coalescing filters for high efficiency single-pass particulate and water removal.

The BDS4, like the other three units, is available with optional Water Sump Heater and Automatic Water Drain with 5 or 20 gallon remote sump.

About Schroeder Industries
Schroeder Industries, an ISO 9001: 2008 certified company, designs, manufactures and markets filtration products for the hydraulic and lubrication, filter systems, process and fuel industries. Their expertise in filtration technology, superior filter and element technology capabilities, dedication to customer service and product support are the reasons Schroeder is a worldwide leader in Advanced Fluid Conditioning Solutions®.
