Cold Clear™

Cold weather. Clear biodiesel.

ColdClear™ by Schroeder Industries is a multi-stage filtration / adsorption system that ensures dramatic reduction of any potential filter crystallization and gelling factors. Systems are capable of 5 to 75 gpm. ColdClear™ makes sure that your biodiesel can meet the ASTM specification for cold soak filtration. We offer ASTM cold soak testing in our lab, to ensure performance standards are met.

Don't let cold flow problems during winter months slow you down.

Contact Schroeder for the clear solution. 1.800.722.4810
