**In-Line Bulk
Diesel Fuel
Coalescing
Filter | ICF**

In-Line Bulk Diesel Fuel Coalescing Filter (ICF) provide unsurpassed water removal for ULSD and biodiesel fluids. This product provides unmatched ultra high efficiency particulate removal and fuel/water separation yielding lower operating costs and better engine performance.

HY-TRAX®

HY-TRAX® Telematic Communications Module with Remote Controlled Sampling System provides remote visibility to the fluid condition of critical systems. The fluid's ISO cleanliness level, temperature and water saturation (optional) are displayed on a customizable dashboard, which can be accessed via the Internet. The product is also available in a non-telematics version.
