

DATA SHEET

DLP | Desiccant “Low-Profile” Breather

Features:

- Low-profile, high capacity design with low machine clearance dimensions in mind.
- Prevents dirt and water vapor from entering gearboxes and/or hydraulic systems.
- Improves the overall life of the equipment they're mounted on.
- Specifically designed for large mobile machines.
- High water absorption capacity (4 oz).
- Environmentally safe disposable silica gel.
- Prevents rust and oxidation.

Markets:

- Mobile Vehicles
- Bulk Storage

Applications:

- New and Retrofit Applications
- Gear Boxes
- Hydraulic Reservoirs
- Storage Tanks

Specifications:

- **Pressure Drop/Air Flow:**
1 psid at 20 SCFM/150 gpm
- **Water Capacity:**
4.5 oz.
- **Filtration:**
2 µm Filtration
- **Connection:**
Standard 1" NPT Male or
BSP 1" Male
- **Temperature:**
-22°F to 212°F (-30°C to 100°C)
- **Dimensions:**
4.75" H1 x 3.25" H x 6.00" D
