GRT8 | Tank-Mounted Return Line Filter

- Tank-mounted return line filter rated for 100 gpm and 100 psi
- Drop-in, sure seal tank-mounted footprint for easy installation with OEM-selected connections
- The plastic bowl and cap keep filter costs and weight down
- Available with quality-protected GeoSeal® elements

HDP 240 BC | On-Board Diesel PreCare

- Our new 63 gph fuel filter is designed with compact off-highway equipment in mind
- Modular porting, priming pump, and heater options make for easy installation and serviceability
- Dual function diesel filtration and water separation uses the same two-stage element technology found in our larger filter models

TNK7 | Complete (7 gal.) Tank Solution

- Package solution complete with all necessary accessories installed
- CFD Optimized design creates settling zone for returning oil (degassing) with simultaneous cooling effect
- Tank is certified clean, eliminating time-consuming flushing & testing
- Also available in 12, 18, & 25 gallon reservoir sizes

PAB3 & PAB53 | Durable Air Breathers

- Cost-effective way to combat the ingestion of airborne contamination while increasing the efficiency and reliability of your hydraulic system
- Constructed to provide high resistance to moisture and adequate micron ratings
