

ENGINEERED SOLUTIONS FOR MEASURABLE ROI

About Schroeder Industries

As an ISO 9001:2015 certified company, Schroeder Industries has been designing, manufacturing, and marketing a complete range of fluid conditioning products for well over 70 years. With fluid diagnostic tools and the most complete range of standard and custom filtration solutions, **we are the industry leading provider of Advanced Fluid Conditioning Solutions® for oils, fuels, gas, and water.**

AMFS | Asset Management Filtration Station®

- Complete fluid management system to monitor fluid condition, filter out contaminants, and track data by asset name
- Auto record-keeping, trending, and analysis of fluid with on-board PC
- Ideal for managing multiple equipment assets

MFD w/ HY-TRAX® | Fluid Condition Monitoring Cart

- On-board HY-TRAX® sampling system for real-time fluid condition monitoring
- Staged filtration cart for particulate and/or free water removal in hydraulic oils up to 2500 SUS
- Quick clean-up of existing systems and prefilter of new fluids to desired ISO level

TDS-A | Triton Dehydration Station®

- Patented mass transfer technology uses ambient air to optimize and control water removal from oil
- High Dewatering Rates and particulate filtration in one system
- Simple Controls; RUN/DRAIN
- No expensive vacuum pump to service or replace

TNK | Complete Tank Packages

- Complete with all accessories installed, saving assembly time
- Tanks are certified clean, eliminating time-consuming flushing processes
- Available in three (3) performance optimized sizes (12, 18, & 25 gal.). Also available in custom configurations.
