

Hydraulic & Lube Filtration

For Immediate Release

SCHROEDER INDUSTRIES INTRODUCES

Tank-Mounted Low Pressure Filter | ZT

May 2016 | Leetsdale, PA

Leetsdale, PA - Schroeder Industries, a recognized leader in filtration and fluid conditioning products, releases the redesigned ZT, a tank-mounted low pressure filter.

The 100 psi ZT features an aluminum head with a plastic bowl and plastic cap to minimize weight. The new ZT retains the same mounting pattern as the previous design, so it can be a drop-in replacement for existing applications. The threaded outlet option is now standard to reduce cost to our customers and it is now equipped with optional PAB1 breather and dipstick. As a quality protection measure, it is also available with new GeoSeal® elements.

ZT

About Schroeder Industries

Schroeder Industries, an ISO 9001: 2008 certified company, designs, manufactures and markets filtration products for the hydraulic and lubrication, filter systems, process and fuel industries. Their expertise in filtration technology, superior filter and element technology capabilities, dedication to customer service and product support are the reasons Schroeder is a worldwide leader in Advanced Fluid Conditioning Solutions®.
